Projects

- **NestHub – Property Rental Web App**
Built a property rental platform using C# ASP.NET Web Forms with Azure App Service, Blob Storage, and Azure SQL Database.
- **SpaceMaker – 2D Top-Down Shooter Game**
Developed a Windows Forms-based airplane shooter game featuring player movement, enemy AI, collision detection, and basic game mechanics.
- **Talipaap – Mobile Market App**
Created a Firebase-powered Android app for local market shopping with real-time data and improved user experience.
- **SenseGrid – IoT Room Monitoring System**
Developed an IoT system using Arduino and WeMos to monitor temperature, humidity, and lighting with Firebase integration.
- **SEALGUARD – Secure Document Management System**
Developing a system with hashing, encryption, and digital verification for secure file handling and data integrity.

Skills

- C#, ASP.NET Web Forms
- Xamarin, Android Studio
- Arduino, IoT Development
- Microsoft Azure, Firebase
- SQL & Realtime Databases
- Cybersecurity (Encryption, Hashing)
- CRUD Operations, System Design

Certifications

- CCNA: Introduction to Networks (2024)
- CCNA: Switching, Routing, and Wireless Essentials (2024)
- CCNA: Ethical Hacker (2025)
- CompTIA Tech+
- Google Cloud Computing Foundations
- Google Cloud Cybersecurity Certificate

Seminars & Workshops

- **Serverlesspresso Workshop (AWS Student Community Day – Southfest)** – Serverless architecture & cloud deployment (Feb 2026)
- **Atlassian Lunch & Learn: Rovo AI** – AI-powered collaboration & workflow automation (Feb 2026)
